

YASAMAN ROUDAKI

Data Scientist with experience in machine learning, clinical research, and multimodal health data analysis

 yasaman.mirrezaei@etu.unige.ch  +41 77 9927437  22-Rue Jean-Charles Amat
 1202, Geneva, Switzerland  yasaman-roudaki

EDUCATION

- **M.Sc. Business Analytics**
UNIGE (GSEM & DSM-Firmenich)
 Sep 2023 – present
Master's Thesis (Grade: 6/6):
NLP-based Email Automation (DSM-Firmenich)
- **B.Sc. Chemical Engineering**
IUST
 Feb 2010 – Feb 2015
Bachelor's Thesis (Grade: A):
Methylene Blue Removal from wastewater Using Synthesized Membrane

WORK EXPERIENCE

Data Scientist - Interim request Coordinator  **Python, Azure**
SAP, Excel

Firmenich¹

-  Sep 2024 – Sep 2025  Geneva, Switzerland
- Designed structured data **extraction workflows** from enterprise systems (CoreDB/Spire)
- Developed a **hybrid NLP pipeline** for **multi-label classification** of internal requests using **semantic embeddings (MiniLM)** and rule-based methods, achieving **0.80 label coverage**.
- Built and evaluated **supervised machine learning models** (Logistic Regression, OvR), achieving **F1-score of 0.68** and improving accuracy to **0.81** on multilingual data.
- Leveraged **Microsoft Azure** for scalable **data processing, model deployment**, and workflow automation.

Freelancing

 **R, Python**

-  Oct 2021 – Sep 2023
- **First Project: First Party Fraud Detection**
 - Natural Language Processing on customers' addresses written in Persian
 - Developed a Recurrent Neural Network model to estimate geographic positions from addresses in order to detect customers exploiting the first purchase discount
- **Second Project: Experimental design project**
 - Designed and analyzed sensory satisfaction experiments for an infant cereal product using ANOVA and linear mixed models.

Data Scientist - Survey Designer - Administration  **R, Excel**
Zarvan Andish²

-  Nov 2016 – March 2021
- Analyzed large-scale survey datasets.
- Led hospital-based patient data collection.
- Designed surveys and ensured data quality.
- Applied statistical modeling to survey data.
- Supported interdisciplinary research projects.

Chemical Engineer Researcher  **Microsoft Office**
Naftoon IRSA³

 Sep 2015 – Oct 2016

ONGOING RESEARCHS

- **Research Assistant (Part-time) – Chronic Fatigue & Long COVID Study**
Unige (Campus Biotech) 2026–Present
- **Biomedical Imaging Research Project**
Unige 2026–Present
 - Conducted a PRISMA-compliant systematic review on AI- and image-based neonatal jaundice detection using optical sensing and image processing.
 - Screened studies in Rayyan and extracted diagnostic accuracy data (TP, FP, TN, FN, sensitivity, specificity) from eligible publications.
 - Performed diagnostic test accuracy meta-analysis and QUADAS-2 risk of bias assessment in RevMan 5.4, generating forest plots for evidence synthesis.

SKILLS

-  **Programming**
 - **Python:** NumPy, Pandas, Matplotlib, Scikit-learn
 - **SQL**
 - **R:** RStudio, RMarkdown
-  **Tools**
 - **Data:** Power BI Dashboards, SAP, Excel
 - **Cloud & Collab:** Azure, Confluence, Teams
 - **Office:** PowerPoint, Word

ASSISTANTSHIP

- **Teaching Assistant – Process Integration & Heat Transfer**
 Sep 2015 – Jun 2016 **SBU**
- **Lab Assistant**
 Jan 2015 – Sep 2016 **IUST**
 - Recorded and reported results collaboratively
 - Helped new students set up experiments

CERTIFICATES

- **Digital Innovations for a Happier, Healthier Aging**
 July 2026 **Unige**
- **Python Programming**
 Sep 2020 **SUT**
- **SEO and Digital Marketing**
 Sep 2019 **UT**

INTERNSHIP

- **Engineering Intern at NIGC**
 Jun 2013 – Aug 2013 **IUST**
 - Worked with PFD and P&ID maps
 - Learned gas storage methods
